

DEBSHATA CHOUDHURY

+91 9910907292 ✦ New Delhi, India

debshatachoudhury@gmail.com ✦ [LinkedIn](#) ✦ [Portfolio](#)

OBJECTIVE

Data Analyst with **Passion** for **Coding** and **Testing**, applying **Cutting Edge Technologies** to deliver **Innovative Solutions** and **Process Optimization** across **Business Domains** via **Data Analysis**; **Designed** workflows and the **Implementation Of Solutions** with **Effective Communication**, clear **Responsibilities**, strong **Problem Solving**, **Interpersonal** strengths, ability to **Collaborate** on **Technical Research**.

EDUCATION (PURSUING DUAL DEGREES)

B.S. Data Science , IIT Madras (Completed Diploma in Data Science and Programming)	2023 – 2027
Coursework: Business Analytics, Data Management, ML Practices, Statistics, Tools for Data Science	
B.Tech Computer Science , Amity University, Noida	2023 – 2027
Coursework: Data Structures, DBMS, OS, Software Engineering	

SKILLS

Languages	Python , R , Java, JavaScript, SQL, HTML, CSS, C++, Qiskit
Big Data	PySpark, Apache Spark, Hadoop, Hive, Delta Lake
Databases	MySQL, PostgreSQL, SQLite
Machine Learning	PyTorch, Scikit-learn, Regression, Classification
Data Engineering	ETL Pipelines, Medallion Architecture, Data Validation, Pipeline Development
Visualization	Power BI , Looker Studio, Matplotlib , Plotly
Tools	Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Prefect

EXPERIENCE

Associate Software Engineering Intern Accenture , Bengaluru, India	May 2026 – Jul 2026
Designed and implemented PySpark ETL pipelines that transformed 5 synthetic banking datasets into analytics-ready Gold tables, reducing pipeline complexity through Medallion architecture, modular data validation, and Delta Lake-based processing.	
Quantitative ML Research Intern Finideas , Remote	Feb 2026 – Apr 2026
Developed equity market prediction models using 15+ engineered features, improving forecasting reliability through XGBoost, LightGBM, and time-series validation.	
Data Analyst Intern Excelerate , Remote	Feb 2025 – Apr 2025
Analyzed learning outcomes for 500+ participants, enhancing program decision-making through Looker Studio dashboards and data-driven reporting.	

CERTIFICATIONS & PUBLICATIONS

AWS Certified Cloud Practitioner (CLF-C02), [Badge](#) ✦ **CCNA**, [Badge](#) ✦ **McKinsey Forward Program**, [Badge](#) ✦ **Research Study on Qubits (ICETET 2025)**, [Link](#)

VOLUNTEERING

Qiskit Advocate — IBM , Remote	Aug 2025 – Present
Developed a 5-qubit QCBM achieving 85% molecular validity on IBM Quantum hardware; presented at IBM QAMP 2025 and contributed to Qiskit open-source research alongside a Global team of Experienced Professionals.	

PROJECTS

AI Water Disaster Risk Intelligence — Winner, Xylem Innovation Challenge . Achieved 81.29% accuracy using XGBoost , 28 engineered features, and cross-validated optimization. [GitHub]	
ML Exoplanet Discovery — 2nd Runner-Up, NASA Space Apps . Achieved 86.78% accuracy using LightGBM + XGBoost Soft Voting with 112 engineered features. [GitHub]	
Deep Learning Medical Screening — Top 50, IIIT-Delhi HORIBA Hack4Health . Achieved 83.87% TB and 82.02% wound CV accuracy using PyTorch, Keras, ResNet34, ConvNeXt & EfficientNetV2 . [GitHub]	
Quantum-Classical Logistics Optimization — Top 10, Microsoft Azure Hackathon . Built QUBO/QAOA + classical routing with IBM Quantum hardware, FastAPI, Docker & MongoDB . [GitHub]
